

KDA 2025 Research Grants & Fellowship Announcement

The Kennedy's Disease Association is pleased to announce its 2025 SBMA research grants and fellowship programs. Through these programs, we seek to further understand the pathological mechanisms of and possible treatments for Kennedy's disease.

Details and proposal instructions are provided below. Please note the submission date for both programs is **Monday, June 2, 2025**. Awards will be announced in September after review by KDA's Scientific Review Board. Direct any questions via email to "info@kennedysdisease.org."

SBMA Research Grants

Grants up to \$100,000 are available for one or two years. Junior investigators and senior post-doctoral fellows are encouraged to apply.

Waite-Griffin SBMA Fellowship

Fellowships for junior researchers provide \$75,000 for one year of salary and benefits and a \$2,000 travel allowance. Awardees are expected to devote at least 70% of their time to SBMA research.
